PLUM DROPS

Dr. James Again Appointed United States Marshal For Kentucky.

ANNOUNCED THIS MORNING

Great Surprise Created Over the Report That the Sartoris-Balfour Wedding is Off.

NO EXPLANATION MADE OF THE CAUSE

DR. JAMES REAPPOINTED.
Washington, June 22.—Dr. A. D. James was this morning reappointed United States marshal for Kentucky. The appointment was no surprise, as he had given general satisfaction and it was thought all the time he would be reappointed without opposition.

WEDDING DECLARED OFF

London, June 22.—The Morning Post prints an announcement that the marriage of Miss Vivian Sartoris, grand daughter of Mrs. J. S. Grant, and Archibald Balfour, will not occur. No explanation accompanies the announcement and the affair has created a great stir in social circles.

LATEST DEVELOPMENTS.

A NEW UNION, ACCORDING TO REPORTS, TO BE ORGANIZED.

The trouble at the Marine ways is still hanging fire. The men who walked out have not yet returned to work and the cankers who claim themselves journeymen and who claim that very few of the men who walked out were journeymen say that a union will be formed. Papers are being made out today to reorganize a union under the ship carpenters and cankers of the state union. They say that no workman who is not a journeyman will be admitted to the union and that the latter will have to join the Dock and Ways union that is now being organized by William South, an employee of the ways.

The charter under which the cankers have been organized will be abandoned and all the employees of the ways and other boat repairing property will be required to come into the union under the new charter.

A LUNATIC.

A BANDANA WOMAN TAKEN THROUGH TO HOPKINSVILLE TODAY.

Mrs. R. F. Bradshaw and C. S. Hall, of Paducah, passed through the city today at noon en route to Hopkinsville. With Mrs. W. M. Bradshaw, aged 60 years, the former's mother, whom they will place in the asylum there. Mrs. Bradshaw has been insane for the past six months and was an inmate of the asylum until about three months ago, when she was discharged as cured. She became worse several weeks ago and it was found necessary to again place her in that institution. The cause of her demented condition is nervousness.

ANOTHER SCORCHER.

OLD SOL CHASED THE MERRY TRIP ALMOST TO THE TOP.

The temperature yesterday as recorded by Government Observer Horneman, went to 100 in the shade. Only one other day this year, last Sunday, has been so warm.

Last night was also very sultry, the minimum temperature being 77.

This afternoon at 1:30 the thermometer at Observer Horneman's registered 101.2. This is the hottest for the day and for the season.

LIABILITIES \$18,000.
Stovall and Brand, the dry goods merchants who assigned at Mayfield yesterday, will probably have liabilities amounting to \$18,000. Assets unknown. Mr. Stovall formerly resided at Elizabethtown, Ky., and Mr. Brand, who owns a brickyard, was admitted to partnership about a year ago.

WOULDN'T TELL HER NAME.
Mr. Robert Kyle, the well known Illinois Central blacksmith, will go to Louisville tomorrow and claims he will surprise his friends and will bring back a bride on his return. He declined to tell the young lady's name.

There were about ten passengers through for Buffalo on the noon north bound train today. The business is picking up and all lines south are doing a good business in the Buffalo traffic.

Misses Helen and David Hendricks, of Madisonville, Ky., returned home this morning after a visit to their father, Mr. E. L. Hendricks, who accompanied them home.

Mr. Eugene Langley, of the Illinois Blowplant, went to Grayson Springs this morning on a several weeks' visit.

Miss Birdie Nash went to Louisville today at noon to visit.

THE OIL FIELDS

Mr. George C. Wallace Just Back From Texas on Business.

FOUR WELLS TO BE BORED

Some of the Property Has Been Sold, But No More's on the Market—Many Big Land Suits.

CAPT. PELL TELLS ABOUT GAS HERE

Mr. George C. Wallace, who has been in Texas for several weeks, returned this morning to remain about ten days or two weeks on business.

He reports progress in the preparations for boring on his property. They were at first delayed by the difficulty in getting pipe, and then it was learned that wells would have to be dug for water to furnish the boilers with steam. This caused further delay, but now there are four derricks upon the Watson property, and all the necessary pipes, machinery and other material is there, ready for use, and boring will begin at once.

Quite an area of the property has already been sold at good prices, but no further sales will be made until the boring is finished. There are plenty of offers, but Mr. Wallace and other owners do not desire to dispose of it at present.

Texas is now very much excited over the oil discoveries, but there is less confusion than formerly.

Mr. Wallace reports that there is now over \$30,000,000 in suits pending in the courts over land that has more than one claimant.

Mr. Wallace will return to Texas as soon as he completes his business here.

Mr. Charles Pell, the veteran river man, was in a reminiscent mood this morning, and in speaking of the report that there was oil down below the ice factory, on the river bank, said:

"I remember about fifty years ago that we used to go down to the foot of what is now Jefferson street, where the river was low, and amuse our selves lighting the bubbles that came up through the shallow water from the ground."

"It was a favorite diversion with all the boys in those days, and many is the time that we lighted the gas and watched it burn. I notice that one man is quoted as saying that it was oil, but in those days we called it gas."

"I remember that once the late Mr. J. G. Fisher, afterwards mayor, placed a hoghead over one of the small gas jets provided by nature and lighted it, and it burned for several days. It was certainly gas."

"You could find those little jets then at most any place during low water from Jefferson street to where the Illinois Central bridge now is. It may be oil now but it was gas in those days."

"It need to be a favorite theory in those days that the gas was generated from the vast deposits of dead leaves that decayed all over the bank. In later years I have heard nothing of the gas that we used to enjoy so much half a century ago, but it may still be there."

GOES TO INDIANAPOLIS.

MR. EISENBERGER WILL NOT START A RESTAURANT HERE.

Mr. Chas. Eisenberger, of Cairo, who was to start a restaurant here, has abandoned the project, and left the city today for Indianapolis, where he will open a big restaurant. He had a lease on the Campbell building, which was given up a few days ago.

CONDITION PRECARIOUS.

The many friends of Captain R. G. Rouse will regret to learn that his condition is most critical and recovery is doubtful.

THE WEATHER.

Generally fair tonight and Sunday excepting showers tonight in the extreme eastern portion.

TO SUE SHERIFF.

LEE WALTERS SAID TO BE PREPARING A DAMAGE SUIT.

Lee Walters, of this county, who was yesterday acquitted at Benton of perjury in the "Tex" Sprague case, has according to reports signed his intention of suing Sheriff Rogers and other McDouck county officers for alleged false imprisonment.

He was arrested here several months ago and placed in jail until he could be taken to Benton.

Henry Foley, the man who swore that Walters paid him to shoot into his, Walters' house, has according to reports been indicted for perjury. At a former trial he swore he did not know who did the shooting.

AMERICAN DERBY.

A LARGE CROWD IN CHICAGO TO SEE "EM OFF THIS AFTERNOON.

Chicago, June 22.—An immense crowd is gathering for the American derby, Paruleur in the favorite with his Eminence and Bonnet close up. It is likely that the crowd will be the largest ever seen here.

RAILROAD NEWS.

The Illinois Central announces that arrangements have been made with Elder, Dempster and Co. to put on a regular monthly service between New Orleans and Glasgow, Scotland, with stopovers at the West line. The first vessel will be the Tynner, which will land during the first half of August. This is the first regular line that has been established.

The deal was closed at Thebes, Ill., for the land upon which the eastern end of the new bridge over the Mississippi there will rest. The combined railroads which will use the bridge purchased 100 acres of land upon the hill there from Isaac H. Dexter. The Illinois end of the bridge will be about 7 feet higher than the bluffs there, so practically no approach will be required. The trains will turn north upon leaving the bridge, the Illinois Central trains going straight ahead to Gale, which is their present crossing there, and the Chicago and Eastern Illinois trains making a circuit around the hills and turning southward through the village of Thebes.

It is reported that the Kanawa Dispatch railroad will shortly drop the Illinois Central, whose tracks it has been using, and substitute the I. and N.

One of the leading railroad officials of the Southern, whose headquarters are in Little Rock, is of the opinion that this change is brought about by the desire of the Chesapeake and Ohio, which is really the power behind the throne in the Kanawa, to divert the grain shipments from New Orleans to Newport News, a proposition that the Illinois Central will not think of attending for. It is claimed that the grain rates to the east are already so high, that the shipments would show a liberal tonnage but small profits, and in case this phase of the grain traffic materializes there will be a lively time in official freight circles.

—Owing to the heat there was a small congregation at Temple Israel last night to hear Rabbi Margolis preach.

—State Secretary Rosevear, of Louisville, is expected Monday on a visit to the local association.

—The Gun club held a practice shoot at the park yesterday afternoon and it was well attended.

—Mr. R. S. Whitsett, an employee of the E. R. Harkopf saddlery works, had a finger badly injured in one of the machines this morning. Dr. Boyd dressed the injury.

—Mr. A. V. Scofield, the well known Illinois Central blacksmith, and family left for Shelbyville today at noon to visit relatives. Mr. Scofield will return Monday but his family will visit in that city about two months.

FAIRLY GOOD

Business for the Past Week Has Been Satisfactory in Most Lines.

THE BANKS WILL DECLARE

Dividends Next Week—The Past Six Months Has Been a Very Prosperous Period for All the Banks.

THE BUSINESS NEWS OF THE WEEK

Retail trade, the past week, with some houses, has been very good, Monday and Tuesday, especially being good days. The dull season is at hand however and no one expects big things. The clearance sales will be the features of the stores for the next few weeks and should make trade active.

In the wholesale circles the conditions are about like last week's. Trade is a little quiet with collections slow. Some of the whiskey houses are enjoying splendid trade but with the other houses the volume of business holds up about the same.

The manufacturing concerns report business good. For most lines it is off season, yet the hang over orders are coming in very well. The Lack Singletree Co. received a good sized order this week from Salt Lake City for a bill of goods. They have representatives in ten cities now and are running with full force this summer, although it is out of season to get up stock for current demands and for the early fall trade.

The Sutherland Medicine company is booking some good orders for Pine Tar Honey this month and July, August and September, it is expected will prove exceptional months. The sale of this medicine has assumed wonderful proportions and the business done this year will run into large figures. River trade continues good and all the boats are getting a share of it. Passenger business is fine. The railroads, too, are having good passenger traffic, the summer traveling having set in in earnest.

There is much rejoicing over the final settlement of the furnace project and the positive assurance that the furnace will soon be in blast. Gentlemen who should know say that Paducah's prospects for a big iron industry in the next few years are splendid and that it will give all lines of retail trade a great impetus.

TOBACCO.
The tobacco market experienced practically no change from that of last week excepting on lugs. There were larger offerings but the bidding was not so lively as was expected. The market has recovered somewhat from its recent depression. Gilbert & Co. held no sales yesterday but will offer a few hogheads today.

Lugs were a little easier than last week and were about two bids easier than last week's lug market. Leaf is reported fully up in comparison with the market of the past several weeks. Inspector Miller reports as follows:

Receipts week, 346 hogheads.
Receipts year, 5,180 hogheads.
Offerings week, 309 hogheads.
Rejections week, 49 hogheads.
Private sales week, 35 hogheads.
Sales week, 295 hogheads.
Sales year, 3,325.

REAL ESTATE.
By W. M. James.
Market this week shows more interest by investors. Inquiry for houses for renting out has been good, and a few good sales.

Lot sales both for building and speculation more active this week. Business for season of year is in healthy condition, no boom, but constant demand in all lines.

The bank clearings the past week amounted to: Clearings this week, \$586,066.10; same week last year, \$613,381.08.

Business at the banks the latter part of the week was light. The aggregate for the week, however, was

very good. Money is in good demand at present and the market will be tight until after the first of the month. At least the local financiers look for an easier market then.

This is the last week in the first half of the fiscal year and next Saturday the several boards of the banks will meet to declare dividends out of the earnings for the past six months. The period has been a most prosperous one for every one of the local institutions and the statements issued next week will show it. The amount of the dividends distributed will, too, be large.

TANK BURNED.

THE N. C. AND T. L. LOSES WATER TANK AND PUMP HOUSE.

The water tank and pump house at Iola, on the N. C. and St. L., burned last night, entailing a loss of about \$1,500.

The blaze is supposed to have started from a defective flue at the pump station.

A BROOKPORT SENSATION.

The Metropolis Herald says that quite a sensation was created at Brookport by the discovery of the body of a new born infant in a vault at a residence. The coroner was called from Metropolis to hold an inquest.

It seems from reports that a woman alleged to be named Bertha Sisk is the mother of the infant. She came from Pope county and was a domestic at the house where the body was found.

HALF AND HALF.

ONE SENTENCE AFFIRMED AND ONE REVERSED BY APPELLATE COURT.

Frankfort, Ky., June 22.—The appellate court this morning affirmed the sentence of Renken Quinn, colored, convicted at Danville of the murder of Officer Crum, and sentenced to hang. The officer had gone into Quinn's dive to arrest him and was shot.

The sentence of Dr. Clark, convicted at Sturgis of the murder of Cora Waller, and given ten years, was reversed.

Dispatcher W. E. Smith, of Chicago, who has been working in Dispatcher Alvey's place during the latter's trip to San Francisco, returned home today at noon.

Mr. Bell Given, of the master mechanic's department, is expected home today after a week's business trip to Chicago.

threatens to octopus several blocks short. It has abandoned its line on Court from Second to Fourth, and runs only one of its cars to the river, the other two stopping at Second street.

In addition the company has continually and persistently raised its tracks above the grade of the street, which is contrary to law, and when the city's representatives go to it, it only laughs at us.

A BEAUTIFUL WEDDING
A typical June wedding was that of Miss Anne Betheshares Hoyt and Mr. Clifford Darwin Sanders on Wednesday morning at the Broadway Methodist Church. Grace, simplicity and beauty characterized it, while the presence of all Society in their dainty summer gowns added a glow and color that made a most attractive picture. The bride in a charming gown of white organza with hat of pink roses, and carrying Bride roses looked most beautiful. The ceremony was by the Rev. H. R. Johnston, and Prof. Charles M. Davis presided at the organ. The ushers were Mr. William Sanders, Mr. David Sanders, Mr. Richard Rudy, Mr. Henry Rudy, Mr. Charles Boyd, and Mr. Wallace Well. An informal reception followed the ceremony, at the home of Judge and Mrs. James L. Don't forget the auction sale of Dave Levy's stock. Sales commence tonight at 7:30 sharp and begin at 9 a. m. tomorrow and continuing all day.

SUCCESSFUL COMMENTARIES. It is probable that the school committee will have a surplus when the commencement returns are all in. It looks as if there would be about \$50 more than the cost of the exercises.

The park theater was donated by Manager Malone both evenings.

The greatest opportunity of the year for Bargains at Dave Levy's auction sale of his entire stock of merchandise, boots and shoes, clothing and furnishing goods. Everything goes—counters, shelving, show cases, and one iron safe at auction. Sales commencing tonight at 7:30 and tomorrow at 9 a. m. and continuing until everything is closed out.

Patented Transmuting Clock. The transmuting clock at the naval observatory, Washington, is the absolute monarch of American timekeepers. Every day in this year except Sunday, by one pendulum-stroke, it opens directly and instantaneously to every city and considerable towns between the peaks of the Rockies and the plains of Maine at high noon. By the one clock at the national capital together with its duplicate on the Pacific, is not nearly every timepiece in the United States and Cuba, most of them in London and many on the borders of Canada. A number of clocks—three to 3,000—in nearly every large town are wired together.

at the telegraph office, are in contact with the parent national capital. So that an electric touch is given to every clock in the world.

Activity of Kansas Whitecaps.

Buttly Helly of Pooey, Livingston county, Kan., who had agreed to haul six cords of wood to his aged grandmother and had failed to keep his promise found a bunch of switches at his door the other morning with a note from the "White Caps" stating that he "had better haul that wood before the roads got bad." He was very indignant, but has delivered one load of wood to his grandmother, keeping the balance of the switches for the other loads.

Shut Towns at High Altitudes.

Flora living at high altitudes have weaker and more highly pitched voices than those living in regions where the supply of oxygen is more plentiful. Thus in America, among the Indians living on the plateau, between the ranges of the Andes, at an elevation of from 6,000 feet to 14,000 feet, the men have voices like the women, and women like children, and their singing is a shrill monotonous.

TO ALL PERSONS HAVING FARMING, TIMBERED, OR MINERAL LANDS, OR WATER POWERS FOR SALE.

The Nashville, Chattanooga & St. Louis Railway proposes to use its best efforts to induce a good class of immigrants to settle in territory contiguous to its lines and to engage the attention of capitalists seeking manufacturing sites or mining property. It therefore solicits the support, the cooperation and the assistance of the people of every county through which its lines pass. The management earnestly requests that all persons who have farms for sale or lease, those who have timbered lands, water powers or mineral lands for sale, will send a brief description of the same to the railroad agent nearest them, giving the prices and terms of sale. The prices must correspond with the prices asked of local buyers. The management does not propose to aid in selling land to immigrants at exorbitant or speculative prices.

Large tracts suitable for colonization, at low prices, are especially wanted.

THE BEST STORY

Written upon a Subject Interesting to all Readers of the Sun.

A STORY WITH A SEQUEL.

In searching about for a good subject that would make a story most interesting to the greatest number of people the writer of this is fully convinced enough to claim his subject unparalleled. The study of human minds with all their faults and foibles, is, indeed, a study that has driven men and women mad in their endeavor to present some new idea or an old one in some new way. The mind of mankind is constantly seeking something new, some new field of labor; some new invention; some new scenery; and all are seeking new ideas of fashion and dress. The particular new idea of fashion is not always the greatest object of study and research with the great masses of people. Some are looking for a cheap article of wearing apparel and others are looking for an article of wearing apparel which cost the greatest amount of money. The latter class is comparatively small to the great masses of the second class mentioned above. However the writer of this story desires to address all the above classes, as he feels that each and every one will be extremely interested in the real object of this article. Fast, fancy and fashion seem to be the principal theme of the story, but there is a sequel to follow that will probably touch the much coveted goal of all classes and fill the desire and long felt want of an anxious people seeking good, reliable wearing apparel at the lowest possible prices.

This is not a fairy tale or a catch penny scheme but an honest and liberal reduction on reliable merchandise at fair values. We call attention to a good cotton worsted suit for men at \$2.95. Our better grade of cheap price suits are made of woolen material in up to date stripes for \$4.98. We call your attention to a few samples of other suits displayed in our clothing windows at greatly reduced prices. Our line of boys' and children's suits is practically unbroken, and everything has been reduced in price, but your special attention is called to a big lot of Juvenile suits in sizes from three to a ten years at prices from \$1.00 to \$2.00. These goods are positively worth double the price. Beginning Monday morning we will make the following price for one week. Yard wide broken domestic for 4 cents. Dress gingham worth 10 cents for 6 1/2 cents. All our 5-13 cent percale for 7 1/2 cents. Best indigo blue calico 4 1/2 cents. Three pieces of silk challie, worth 40 cents for 25 cents per yard. All our \$1.00 corsets for 75 cents. All our \$1.00 kid gloves for 84 cents a pair.

Ira D. Reckard, Duncombe, Ia., writes: "My little boy scalded his leg from the knee to the ankle. I used BANNER SALVE immediately and in three weeks' time it was almost entirely healed. I want to recommend it to every family and advise them to keep Banner Salve on hand, as it is a sure remedy for scalds or any sore."

The City of Clifton from Tennessee
river arrived at 4:30 this morning.
She had a good trip of freight and full
of excursionists. She departed for St.
Louis at 8 a. m.

The City of Memphis from St.
Louis is due this afternoon for Ten-
nessee river. She has a large party
of round trip people, principally lady
clerks, taking their summer vacation.

The boat yesterday was too much for
several of the day dock crew. They
had to retreat to a shady spot.

Bob Smith is living up on easy
street at present, but is ready for a job
at any time.

Brother Jack Jackson is still limping
about.

The J. N. White will take her
leave tomorrow morning for Nash-
ville, where she is owned and pilots a
packet in the upper Cumberland.
She will tow the missionary boat
Morning Star to Nashville, where she
will receive her machinery and other
outfit.

The John K. Speed from New
Orleans, is due up tomorrow for Cin-
cinnati. She is reported as having a
big up stream trip. It behooves her
to move up pretty lively as the time
is on a run.

Yesterday was the hottest day of
the season, 101 in the shade at 3 p.
m., but a very good breeze prevailed
all day up to 12 midnight. Then it
shut down and sleep was greatly dis-
turbed by the dead atmosphere.

The City of Pittsburgh passed up yester-
day afternoon for Cincinnati with a
big trip of lumber, cotton and other
freight, also about fifty cabin passen-
gers. She left here moving at a Nancy
Hank gait.

The Sunshine, Captain John Kirker
master, will report here from Cin-
cinnati tomorrow morning for Memphis.

The Avalon arrived from Chat-
tanooga today with a party of prominent
citizens of that city who are making
the round trip on her. The Avalon
will get a big freight trip here and at
Brookport for return trip, leaving
next Monday at noon. There are also
several ladies and gentlemen of this
city who will take a trip to Chat-
tanooga and return from here, leaving
next Monday.

The Duck Fowler departed for Cairo
at 8:15 this morning in good shape.

The Boaz with 3,000 barrels of
sugar is on her way up from New Or-
leans for Cincinnati. The sugar is on
the barge Hannibal and will be
dropped at Louisville.

The City of Golconda left at noon
today for Golconda with a good trip.
Captain W. C. McCoy, the veteran
river man and proprietor of McCoy's

Landing and coal yards at Ludlow,
Ky., is in a serious condition. He
was struck by a heavy hoisting boom
and has been unconscious for two
days. Captain McCoy is one of the
best known river men in western
water.

The Will S. Hays' excursion from
Louisville to Henderson and return
was a success in every particular,
especially in a financial sense. Col.
Hays was in command of the Morning
Star on the trip.

Business was not on a boom today
down at the wharf but everybody was
on the go and all arriving and depart-
ing boats did nice business.

The Woolfolk arrived from Trade
Water today with a tow of coal for
the Paducah Coal and Mining Co. A
The John S. Hopkins from Evans-
ville arrived and departed on return
trip this morning. She made a fine
showing in the way of business in and
out.

The H. W. Butterfield is due tomorrow
from Nashville. She leaves next
Monday noon for Clarksville.

The Tennessee is getting a big trip
for her Tennessee river trip. She
will be late in getting off, probably 7
or 8 o'clock this evening on account
of big business.

POLICE COURT.

FRANK CAMPBELL, COLORED,
HAS A CLOSE CALL—
FINED \$50.

In the case against Will Lyle, Al
Mason and Bob McCormick, charged
with stealing a turpentine belonging to
the Western District Warehouse com-
pany, Mason was held in the sum of
\$300 and the case against the others
was dismissed. Mason confessed.

John Kountz was fined \$5 and costs
for using insulting and profane lan-
guage.

John Mix was fined \$10 and costs for
a breach of the peace.

Donn Jones, for petty larceny, was
held to answer.

Frank Campbell, colored, was fined
\$50 for disorderly conduct. He had
broken into Ward's saloon when
caught by the officers and all that
saved him from the penitentiary was
the fact that he hadn't come inside.

SUES FOR \$1,000.

DR. HARRIS' ATTORNEYS HAVE
ANOTHER SUIT READY
TO FILE.

Dr. W. J. Harris, of St. Louis, will
in a day or two file suit against Mr.
E. Rehkopf for \$1,000 for professional
services. Harry and Harrison are his
attorneys.

He sued for \$500 a few months ago
but dismissed the suit at the last term
of court without prejudice. He per-
formed two operations, charging
\$1,000 each. He compromised the
first for \$500. The suit now prepared
is for the second.

IN BROOKPORT TODAY

Contest Begins May 4, and Ends June 30, 1901.

You can vote just as many of these ballots as you can cut
from our advertisements, so long as they are brought or sent to
our store with seven days of the date printed thereon. Every
time the ballot is used in our advertisement the date will be
changed. We will also issue bulletins in our ads from time to
time showing progress of the contest. It costs you nothing but
the time and pains to cut out the ballot in order to vote, you do
not have to be a customer even.

IN THE MEANTIME

We shall be pleased to show you our new line of Spring and
Summer Furniture and Housefurnishings, and to quote you the
lowest prices on High Class merchandise and extend to you an
invitation to take advantage of our equitable plan of "Buy Now,

National Transmuting Clock.

The transmitting clock at the naval observatory, Washington, is the absolute monarch of American timekeepers. Every day in the year except Sunday, by one pendulum-stroke, it speaks directly and instantaneously to every city and considerable towns between the peaks of the Rockies and the plains of Maine at high noon. Many of the clock of the national capital together with its duplicate on the Pacific, is set nearly every timepiece in the United States and Cuba, most of them in Mexico and many on the border of Canada. A number of clocks—about 2,500—in nearly every large town are wired together. Family, and, by means of a at the telegraph office, are connected with the parent national capital. So that no electric touch is given to any clock in the country.

She has been given every advantage and has been trained under the teachers in the largest drama schools of the east, and is now prominent roles in Proctor's company at Albany, N. Y.

The Clipper, which is the dramatic magazine of America, presents Miss Campbell most favorably and her friends may expect to hear of her reaching the highest accolade of fame in the course of her work in amateur organizations for she left Paducah with all most creditable and evoked the unstinted and deserved praise. Campbell's many friends will wish every measure of success.

THE LITERARY OUTLOOK.

Lovers of Ralph Connor will welcome the announcement of a new story by him. It will run first as a serial in The Outlook. One would like to meet some old friends in it.

It is quite unusual to have a book by an anonymous author go through three editions before its publication, but that has been done by "The Tribulations of a Princess," announced to appear from Harper and Brothers. It is by the author of "The Martyrdom of an Empress," and is an autobiography told in the style of romance.

It is said that two American characters will figure largely in American fiction next winter. They are Abraham Lincoln and Aaron Burr, two very opposite characters it would seem. Lincoln has already appeared in Churchill's "Crisis," and it would be hard for him to have more sympathetic treatment elsewhere.

Gwyn Townsend Brady, whose stories and books have received much notice, has resigned his Philadelphia pastorate, and will devote himself entirely to literature. He will make his permanent home in New York city to be near his publishers but will spend the summer at his Cape May cottage.

So realistically does Harrison Robertson in "The Inlander" describe the idyllic wooded valley in Tennessee which owing to occasional overflows has never been touched by the clear air, that he has brought a letter from a Tennesseean to the publishers, Chas. Scribner's Sons, New York, inquiring if that part of the book about Division Valley is made up of it reads like a sure enough place. It is, where is it not? It is bound to be a mighty rich land, and it is bound to be reasonably cheap. I'd like to take a look at it, as I've had considerable experience in reclaiming swamp lands.

This is quite a tribute to Mr. Robertson's powers of description as well as to the popularity of his book, with the "great common people."

Florence Morse Kingsley the author of "Titus," "Stephen," etc., has written a novelette that is said to be clever, original, bright, and captivating. "The Transfiguration of Miss Phillips" is the title, and it is a story woven around the "New Thought," which is finally expression in Christian Science. Deline Healing, etc. "Miss Phillips" makes drafts upon the "All Encircling Good" for a husband and various other things, and the All Encircling Good does not disappoint her. All this sounds very promising, and the book will no doubt have many readers.

Mr. Kipling sent his "Recessional" to the London Times with the following letter, which has just been published: "Dear Sir:—I enclose please find my sentiments on things—which I hope are yours. We've been blowing up the Trumpets of the New Moon a little too much for White Men, and it's about time we sobered down. If you would like it, it's at your service—on the old conditions that I can see it if I want it later in book form. The sooner it is printed the better. I don't want any proof. Couldn't you run it tonight, so as to end the week pleasantly? If it's not your line, please drop me a wire. Ever yours sincerely, R. K." The poem was published the next morning. Kipling was asked to name his own price, but declined all payment.

An exchange contains the following warning which may come in good stead here, and we give for what it is worth.

"If some one should ask you if you have read many of Mrs. Hodgson Townsend's books, do not plead ignorance, the smart Alexandrian is trying to display her knowledge of current matters at your expense. Since her latest marriage 'Frances Hodgson Burnett' has elected to retain her girlhood surname and is calling herself everywhere save on her title pages. 'Mrs. Hodgson Townsend'."

TOMORROW'S BASEBALL.

PADUCAH CLUBS TO GO TO CAIRO TOMORROW TO PLAY BASEBALL.

The Marble Hall baseball club will go to Cairo on the steamer Dick Fowler tomorrow and meet the best team of that place in a match game. The game will be played at 3 o'clock and will be played in the regular baseball park formerly used by the Central League. A big crowd will go down to root for the local boys and they hope to see the local team win. The team of Cairo is a very strong one and has defeated several of the best teams of professional teams in this part of the country.

The Brook Hill team of this city will also go down and play one of the younger teams. The following is the line-up of the Brook Hill team:

- G. Randall, 3b. H. Vogt, 2b. J. Osborne, 1b. J. Simpson, c. W. Russell, p. J. Barreman, 1b. B. Middleton, as. L. Berger, rf. M. Curry, cf.

MANY COMING.

THE RED MEN GREATLY ENCOURAGED OVER THEIR PROSPECTS.

They Will Give the People the first July Fourth or July Celebration in 15 Years.

The Red Men are greatly encouraged over the prospects for a big crowd on July 4.

At Evansville big preparations are being made for an excursion to Paducah on the Joe Fowler. Fully 500 people are expected, and in addition, scores of people from all the neighboring towns will come by both train and boat, on which there will be reduced rates.

The Red Men in Paducah deserve much credit for their enterprise in undertaking the celebration. For several years there have been no attractions in Paducah on July 4 and in arranging for the entertainment now in preparation they expect not only to afford amusement and a place to go for home people, and preclude the necessity of their having to go elsewhere, but will also draw hundreds of strangers to Paducah.

The work at the fair grounds of getting things ready will require several days yet, but the result will fully justify the trouble and expense.

The Red Men ask nothing from any one except encouragement, and patronage on the big day. They are to get up the celebration at their own expense, and it will be a credit to them, surrounding towns are now being billed and an immense crowd is expected July 4 to partake of Paducah's hospitality.

I. C. OFFICIALS.

SUPR. RUSHAW AND OTHER PROMINENT RAILROAD MEN HERE LAST EVENING.

Superintendent of Machinery William Rushaw, of Chicago, arrived in the city from the Louisville division on a special train yesterday afternoon and left for the St. Louis division. He was on his regular southern tour of inspection.

Superintendent H. U. Wallace, of the Louisville division, and Roadmaster L. A. Downs accompanied him to this city and returned home this morning on the pay train.

THE CLEVER MINISTRIES.

The clerks have given their finest talent in the city for their minstrel next Wednesday night and will make a specialty of the music. They will have a full orchestra composed of the best musicians in the city and they are now rehearsing the program for the final night. The last part will be one of the best produced on any stage before a Paducah audience.

The very best specialties will be introduced and they will be as good as any ever produced by amateurs. There will be plenty of ragtime, new and up-to-date songs, wit and wit of the merry and mad. The boys have been rehearsing steadily for the past several weeks and are now in the very best trim for the final night. It will be a novelty in the show line and will be well worth witnessing.

"IT SAVED MY LIFE."

I was in bad health this spring and could not sit up in bed for four weeks. When I was confined my child died. When I began to sit up I felt so weak and had such terrible pains in my back and hips. I had kidney trouble, heart trouble and falling of the womb. I also had hysterical spells. I was in a bad condition when I received your "Ladies' Birthday Almanac" and read the advertisement of Wine of Cardui and Theodore's Black-Draught. Since April 20th, I have taken four bottles of Wine of Cardui and three packages of Theodore's Black-Draught. I feel like a new person now. I can do all my work and can walk out to see any of my neighbors. I believe I would have been in the grave had I not been for Wine of Cardui. IT SAVED MY LIFE.

Mrs. ALICE DAVIS.

It is well that women are more patient than men. Few men could bear the bitter pangs, the agony and distress that women endure. Thousands of women have come to look upon suffering as a duty of their sex. But there are many instances of this heroic fortitude which

WINE OF CARDUI.

now renders unnecessary. Women need no longer suffer for modesty's sake. Wine of Cardui brings relief to modest women in the privacy of their homes. Many of the best homes in this city are never without this great medicine. It cures "whites" and falling of the womb and completely eradicates these dragging periodical pains. Mrs. Davis' cure shows you conclusively what you may expect if you follow her example and take Wine of Cardui. Theodore's Black-Draught aids Wine of Cardui by regulating the stomach and bowels. When you ask your druggist for these medicines, be sure you get them. It was Wine of Cardui and Theodore's Black-Draught that saved Mrs. Davis' life. Never take a substitute.

LABOR UNION NOTES.

Mr. Peter Smith, the national president of the United Leather Workers in U. S. is in Kansas City, Mo., where he attended the national convention of the above mentioned union. He will also spend several weeks in that city visiting relatives. This is the second time Mr. Smith has been elected to and his popularity in union circles and also in a social way cannot be equaled.

The leather workers will meet Wednesday night and hold its annual election of officers. This union is in fine condition and is one of the most enterprising unions in the city. Heretofore in all matters pertaining to labor day and other union celebrations the leather workers have taken an active part in the arrangements and have done more towards the union growth of Paducah than any other union in this city. The leather workers are among the first tradesmen to form a union in this city.

The Central body will hold its annual election of officers the first meeting night in July. It is the suggestion of the union and all arbitrators matters are carried on by this body. It is composed of three delegates from each of the unions and grows with the number of unions. Mr. Sentinella, of the Leather Workers, is the present president of the Central body and will probably be elected to the same office for another term as he has proved himself a good man in the place and is one of the most prominent union men in the city.

The car builders are growing fast and will soon have, comparatively, as large a list of members as any other local union. Many apprentices who are about to become journeymen have expressed their intention of becoming members when they get their trade and in this way the union will rapidly swell in the enrollment. The trade is flourishing and the Illinois Central shop have as many cars as can be handled conveniently at present.

The cigarmakers meet only once every month now. The trade is reported in good condition and the union flourishing. There are only two shops in Paducah that are not in the union and it is hoped soon they will put in their applications and become members. The local union is doing much towards the sale of local brands of cigars in the city and outside of several cigar stands nothing but union brands of cigars are sold. Many of the saloons and in fact all the union bars sell local union made cigars and the smoking public has been educated up to the union made brands which are now generally preferred.

The Harlequins' union will hold its next meeting Tuesday night. The election of officers for the next year will be held on that night. The Harlequins' union is the only union in the city that requires an examination before an applicant is admitted into their union. Every member of the Harlequins' union has to be examined in the art of mixing drinks and if he does not have the very best standing after the examination he fails to pass and is not admitted to the union.

All who are to participate in the Clerks' Union Minstrel are training down to a fine point for the final night. The musical specialties are being rehearsed every night and the orchestra work will be worked on during next week. The boys intend to make it the most successful minstrel ever given in this city.

The Carpenters' union met Tuesday night with good attendance and matters of much interest were discussed. The union is gaining members daily and hardly a meeting night is passed but that several new members are added to the enrollment list. The trade is flourishing and in good condition.

The Pottery union is about in good working order and within the next week will be permanently established.

Mr. Howard C. Warren, the well known machinist and prominent union man, has resigned his position with the I. O. and has gone into the phonograph business.

There is some talk of organizing a Sawyers' union in Paducah. The mills here employ many sawyers and they will make a big union.

The eight hour work-day is agitating the minds of the laboring public at the present time and the matter is being thoroughly discussed in all the unions throughout the country. The present average work day is nine

hours and if possible it will be cut to eight hours. In the past century many machines and inventions of different classes have greatly decreased the requisite number of hours, and to remedy this, the laboring class is agitating the eight hour work day question. They claim that many fine machines and experts at other trades have been thrown out of employment by the labor saving inventions and that they can make hardly enough to support themselves or families. What the laboring class proposes is to make the working day eight hours long, so that more men will have to be employed to put the work out and in this way the defect is remedied to a certain extent. This is the working man's plan. The capitalists or proprietors of the different manufacturing concerns will perhaps look upon the question a little differently. No man will employ any more help than he needs when he has the machines that can do the work just as well, and then nine times out of ten the machine requires an operator and the force of workmen is not cut down but the work is turned out on shorter notice. The fight, should any occur, will be against what the inventors have accomplished during the past half century, and should they—the laboring class—win, the country will get back just one hundred years. It is, however, not probable that the eight hour work day will be generally accepted, but if the proper precedents are prepared, it is not impossible that it will be introduced in a way. The question has not been brought up in the local unions. Like it is intended that it should be but when other matters are attended to it will probably be given a hearing.

About twenty ship carpenters walked out on the wharves at the Marine Ways Tuesday morning. The trouble was caused by the carpenters being sent down to work on the steamer James M. White at both the caulkers and ship carpenters' trades. Superintendent Tom Manning had an agreement with the men saying that he would, when the occasion demanded, work his men at both or either trade, and using his own discretion in doing so. The boat was contracted to be off the Ways today and in the walking out of the carpenters the contract was in danger of being forfeited. The men saw that there was a misunderstanding and agreed to return to work the next morning, but for some reason or other they did not. The matter will probably be brought up on the ship carpenters' union and rules drawn up and passed on relative to the men in the above two trades working at their trade alternately, and prohibiting them from working at any other than the trade in which they stand a member of the union.

Lang Will Suggest a Revocation of the Street Car Company's Charter.

Lang threatens to octopus the Street Railway company, and has about reached the street car company's ears in conformity to the or not at all.

In addition the company has continually and persistently raised its tracks above the grade of the street, which is contrary to law, and when the city's representatives go to it, it only laughs at us.

The mayor promises to time when the street car company's charter is up, whether it is to be renewed or not, completes any.

There was a good attendance and the game was interesting all around. The local team did not play clear over their expense and will probably arrange for another game when the team is in better shape. Jackson, the third baseman for the Marble Hall team, was ill and unable to play, which weakened the team considerably.

The Brook Hills were victorious over the younger team of Cairo yesterday afternoon by a score of 11 to 12. Russell, the pitcher for the Brook Hills team, did some star playing and the result of the game can largely be credited to him. He received the very best of support and the game was interesting all the way through. There was a good attendance and the game was played without an accident.

MR. J. W. CHAMPION.
Mr. J. W. Champion, aged 65, died Saturday evening at 8:30 o'clock, after an illness of three years of cancer of the face. He had been a patient sufferer and was able to get out until a few weeks ago. For several years he had kept a boarding house on Court Street near Third, and was a man who was just and unassuming and was more respected man in the country. He was a Christian gentleman of many excellent qualities, and his death removes one of Paducah's most public spirited citizens.
The funeral took place this afternoon at 4 o'clock from the family residence, serviced by Rev. W. H. Pinkerton. Burial at Oak Grove.

\$8,000 LOSS

The Bazaar Destroyed By Fire and Adjoining Establishments Damaged This Morning

STARTED AT 3 O'CLOCK

The Fire Department's Good Work Saves Adjoining Buildings. Ladies Escape by Ladder.

PARTLY COVERED BY INSURANCE

The Bazaar, at 215 Broadway, was gutted by fire at an early hour this morning and the adjoining buildings were saved only through the good work of the fire department.

The blaze broke out shortly after 3 o'clock. It started in the rear of the house from an unknown origin and swept upwards, cutting off all means of escape for the Misses Abram, who resided up stairs. The two ladies were rescued by stationmen who placed a ladder in the balcony at the second floor and assisted them to the street.

The entire stock of goods will be practically a total loss as all that was not burned was soaked with water and ruined by smoke.

The furniture in the residence was also burned or ruined.

The stock of goods was valued at about \$5,000 much of it being new, and just received. There is \$1,000 insurance on it.

The building is owned by the Henneberger heirs, and the damage to it will amount to two thousand dollars or more.

The clothing store of S. Pelt, next door to the Bazaar, was damaged by smoke and water to the extent of a thousand dollars or more. The loss will be fully covered by insurance.

Mr. John Doherty's stock of dry goods on the other side was slightly damaged by smoke.

The fire was a very dangerous one, and for a time the entire block was in danger. The fire departments did splendid work and soon had the flames under control.

The total loss will be between \$8,000 and \$10,000 with partial insurance.
